

# WHAT'S HAPPENING AT ANI-B

Fall Edition, 2007

African Nations Imports and Books

Bobby Hemmitt is a scholar of "esoteric" knowledge. He has been captivating audiences for the past ten years with a dynamic brand of exploratory scholarship and energetic delivery that involves a tremendous amount of impeccable research, shared during presentations. His philosophy is based upon recognizing the knowledge and wisdom of cultures living in harmony with all life, prior to the rise of the current Eurocentric civilization that limits a unity of oneness with all existence. Hemmitt delves into and blends a number of belief systems into one, giving an insightful analysis of current events that is awesome to witness. Revised from <http://www.tehutionline.com/newpage31.htm>
